

# DCS ClayRipper Sticks

*Easy Solution for Clearing Clay from the Bit*

## Description

ClayRipper Sticks are self-dissolving tubes filled with fine ground walnut hulls that help shear sticky clays from the bit and bottom hole assembly. ClayRipper Sticks can be added directly down the drill pipe on connection. These convenient sticks will cut clay and clear the annulus.

## Characteristics

- ClayRipper Sticks can be used with any type of drilling fluid and any fluid additive
- Especially effective used with DCS QuickSticks.
- Fine ground walnut hulls are a natural material that will work quickly and mix into drilling fluid for reclaiming or disposal.
- Easily applied and easy to pump into place
- The wrapping will self-dissolve when exposed to water and pumped downhole
- Dimensions: 1 5/8" X 12"

## **Mixing Dosage Rates**

- Used as a lost circulation material: add 1-2 ClayRipper Sticks down the drill pipe on connection. Pump as normal while drilling ahead.

## **Packaging**

DCS QuickSticks are available in 5-gallon pails with 22 wrapped sticks per pail
