**4. FIRST-AID MEASURES****First Aid Measures**

<b>General Advice</b>	Remove contaminated clothing.
<b>Eye Contact</b>	IF IN EYES: Wash affected eyes for at least 15 minutes under running water with eyelids held open. Seek medical attention.
<b>Skin Contact</b>	IF ON SKIN (or hair): Wash thoroughly with soap and water. If irritation develops, seek medical attention.
<b>Inhalation</b>	IF INHALED: If difficulties occur after dust has been inhaled, remove to fresh air and seek medical attention.

**Ingestion** IF SWALLOWED: Rinse mouth and then drink plenty of water. Do not induce vomiting. Immediate medical attention required.

### **Most important symptoms and effects**

**Symptoms** The most important known symptoms and effects are described in the labeling (see section 2) and/or in section 11., Further important symptoms and effects are so far not known. Hazards: No hazard is expected under intended use and appropriate handling.

### **Indication of any immediate medical attention and special treatment needed**

**Notes to Physician** Treat according to symptoms (decontamination, vital functions), no known specific antidote.

## **5. FIRE-FIGHTING MEASURES**

### **Suitable Extinguishing Media**

Dry powder. Foam.

**Unsuitable Extinguishing Media** Water jet. Carbon dioxide.  
If water is used, restrict pedestrian and vehicular traffic in areas where slip hazard

### **Specific Hazards Arising from the Chemical**

Carbon oxides, nitrogen oxides

The substances/groups of substances mentioned can be released in case of fire. Very slippery when wet.

**Sensitivity to Static Discharge** Take precautionary measures against static discharge.

### **Protective equipment and precautions for firefighters**

Wear a self-contained breathing apparatus.

The degree of risk is governed by the burning substance and the fire conditions. Contaminated extinguishing water must be disposed of in accordance with official regulations.

## **6. ACCIDENTAL RELEASE MEASURES**

### **Personal precautions, protective equipment and emergency procedures**

**Personal Precautions** Use personal protective clothing.

**Environmental Precautions** Do not discharge into drains/surface waters/groundwater.

### **Methods and material for containment and cleaning up**

**Methods for Containment And cleaning up**

**For small amounts:** Pick up with suitable appliance and dispose of.

**For large amounts:** Contain with dust binding material and dispose of.  
Spilled product which becomes wet or spilled aqueous solution create a hazard because of their slippery nature. Avoid raising dust.

## **7. HANDLING AND STORAGE**

### **Precautions for safe handling**

**Advice on Safe Handling**

Breathing must be protected when large quantities are decanted without local exhaust ventilation. Handle in accordance with good industrial hygiene and safety practice. Forms slippery surfaces with water.

**Protection against fire and explosion:**

Avoid creating dust. Organic powders may be capable of generating static discharges and creating explosive mixtures in air. Handle with caution. The product is combustible. Avoid dust formation. When flammable solvents are present, the container must be inerted or the system otherwise designed to prevent or contain an explosion. Seek expert advice. In addition, for products packaged in fused-lined (coated) fiber drums, fiber drums with conductive liners, steel drums, steel pails, and type 'c' FIBC (bulk bags), or other conductive the following instructions also apply: - Always ground this package before emptying. The user is responsible for designing the system to handle solid and ensuring proper training of employees in the system's use.
